HYDRAULICS CYLINDERS REPAIR OPTIONS

INTRODUCTION

Barloworld Equipment offers you repair options on selected machines. With solutions that are fast and convenient, we can make sure your hydraulic cylinders performs at their best. We also strictly adhere to caterpillar's reuse and salvage guidelines so you can be rest-assured that your equipment will perform at its peak. That's why repairing before failure is so critical. We have complete workshop capabilities in house.

CAT

HYDRAULICS CYLINDERS REPAIR OPTIONS

Nothing has a bigger effect on machine performance than your hydraulic system. When it comes to Cat® Machines, your hydraulic system is only as good as its weakest component - which is why you should **ALWAYS USE GENUINE CAT® PARTS AND SERVICE**. If you compromise your system with **NON CAT®** Components, you could be opening it up to problems like decreased performance, lower productivity or contamination.

CAT®

HYDRAULICS CYLINDERS REPAIR OPTIONS

5 REASONS TO CHOOSE CAT®

1. UNRIVALED EXPERTISE.

No one has the experience and knowledge of Cat equipment like we do.

2. GENUINE CAT® PARTS.

With patented designs and materials, they are the best parts for your machine.

3. INSPECTION PROCESS.

As a Cat® dealer, we have one of the most meticulous inspection processes in the industry.

4. VALUE DESIGNED INTO EVERY PART.

We have proprietary pump designs and control settings, as well as induction-hardened rods.

5. NOT FOR JUST CAT® MACHINES.

We can provide repair options across a wide range of equipment
